

SETTING UP YOUR LINKIT PARENT PORTAL ACCOUNT

STEP 1

1. Your school district will provide you with a registration code as well as a hyperlink to get to the web address for LinkIt's parent portal. This may come in the form of an email or it may be distributed by other methods. If you receive the email, you will see the students you are attached to.

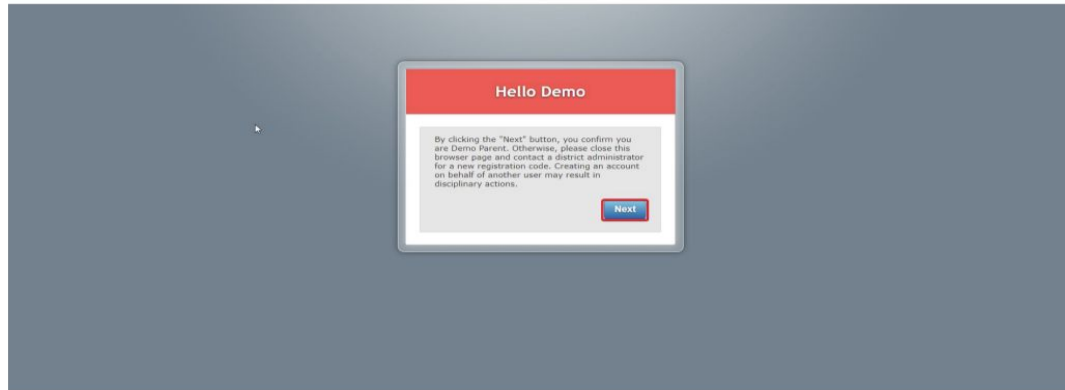

STEP 2

2. Once you have reached the login screen, click the “Have a Registration Code?” button and enter the registration code that was provided by your district.

STEP 3

3. After clicking the submit button, you will be asked to verify that you are the parent or guardian that received that notification. Click *Next*.

STEP 4

4. This screen will require you to create a password and confirm it. You can see that the username defaults to the email that is on record for your school district. After entering and confirming your password, click the submit button.
